

Annual Index

2007

Includes:

Contents, Index to Authors of Technical Papers,
Subject Index

Table of contents 2007

January/February

- 2 Global News - Mexican automotive foundry expands its European market; The whole spectrum of contract manufacturing
- 3 Forgemasters receive standing ovation at national awards; UK's largest crankshaft manufacturer wins top industry award
- 4 The Top 10 European Utility Companies; OMZ ships equipment for continuous casting machine to Seversk Pipe Plant; Stop press
- 5 Russian sales for Inductotherm Top 100 mark; Grantham Engineering celebrates its diamond jubilee; Stop press; UK foundry wins international environmental recognition
- 6 Morris appoints new sales manager to spearhead growth in the south; NovaCast expands foundry capacity in Hastveda; Hottinger intensifies US activities; Alcoa Howmet expands capacity; Ashland Casting Solutions expands European presence; Alcan appoints new CEO; GKS opens laser scanning and CAD modelling office in Korea
- 7 ALFED Diners urged to stay competitive; Health & Safety '07; End of the road for the Foundry College Association; Pangborn commits to our industry
- 8 Professional - Master plan to develop new route to professional registration; Engineering industry is losing out in skills shortage; REMET Apprentice of the Year Award
- 9 UK engineering skills base at risk as engineering student numbers drop by a quarter in further education; SEMTA welcomes Leitch Review outcomes
- 10 Moulding and Coremaking – Developments in moulding and coremaking
- 13 Production line for V6 cylinder blocks
- 14 Tennessee facility expands capacity; Outstanding export development; Fast-loop coremaking centre; Russian orders boost sales
- 15 Eliminating mould shift; Chinese orders for Spanish specialist; Aeration filling
- 16 Health and Safety - Social dialogue agreement on respirable crystalline silica: the next steps
- 18 Maintenance-free gas detection
- 20 Good practice controls for hand-arm vibration. The HSE approach for 2006-7
- 22 Keeping up with Kyoto
- 23 Metal Prices
- 24 Technical Paper - Automatic visual 3-D inspection of castings
- 28 Technical Paper - Developments in the design of steel castings
- 32 Technical Paper - Accurate and complex NET-SHAPE castings for challenging markets
- 38 UK Regional ICME News - Scottish Branch technical meeting - Rapid Shell Build for Investment Casting; West Midlands, Birmingham & Coventry Branch technical meeting - An alternative route for the production of Compacted Graphite Iron; London Branch technical meeting - Cti-past, present and future
- 39 West Midlands, Birmingham & Coventry Branch quiz night - The Bill Rooker Memorial Quiz 2007... another year of fierce competition!; Scottish Branch Annual Dinner Dance; A voyage through time - history of Yarrow's shipbuilders. Joint meeting with Scottish Association of Metals; Branch events

March

- 42 Global News - Action India; Primary aluminium plant for Greenland; National Casting Technology Centre in South Africa takes shape
- 43 Austempered Ductile Iron finds new markets in 2006; Steel output in China set to raise by 17% in 2007; Manage reliability successfully; Technology at your fingertips
- 44 Doncasters to play a pivotal role in the IMPRESS integrated project; Stop press
- 45 Talking about a revolution - first class protection for robots; Developing countries given a chance by Europe; Manage waste online; Acquisition casts success die for Patay Foundries
- 46 Heavyweight for light metals; Casters represented at contract manufacturing show
- 47 Ransom & Randolph launches product for DS/SC casting; The future of product development
- 48 Professional - UK foundries represented in IOM³ Technician of the Year; Latest EC^{UK} figures show another good year for professional registration
- 49 Registration as a Professional Engineering Technician; Metal Prices
- 50 Furnaces and heat treatment - Developments in melting-related technology

- 54 Environmental recycling of lead; Energy saving with recuperation, Building on a long tradition
- 55 Aluminium recycling furnaces; The West Midlands ICME Foundrymen's Society 22nd Annual Banquet Saturday 5 May 2007
- 56 Education and training - Helping students become leaders
- 57 Developments in education and training
- 58 Educating Australian automotive component manufacturers
- 59 AFS helps educate US military on casting design; Defect analysis introductory courses; Driving growth in the Midlands automotive industry
- 60 European vocational training receives structure
- 61 Seventh Framework Programme; Skills development; Training and Apprenticeships at dedicated centre
- 62 Technical Paper - Wicking of liquid polystyrene degradation products into the pattern coating in the lost foam casting process
- 66 Technical Paper - Effects of inoculation and solidification rate on the thermal conductivity of grey cast iron
- 72 UK Regional ICME News – West Midlands, Birmingham & Coventry Branch Technical meeting - CORDIS - the inorganic binder system; X1Recall-self-learning process optimisation software; Obituary – Derek Lewis

April

- 74 Global News - Major contracts announced for UK diecaster; Convinced by quality
- 75 Zinifex and Umicore seek to create the world's leading producer of zinc metal; Surface Technology plc expands Armourcote® facility; IMA to hold magnesium in automotive seminars in US and Germany; Hydro's casting business sold to Nemak; Accreditation and training go hand-in-hand
- 76 All change at Ashland as India becomes a strong focus; Marian Holland retires after 24 years service with ICME; Stop press
- 77 North America - US demonstrates steady, sustained growth
- 80 Mexico – Mexican casters have much to offer
- 82 Professional - EC^{UK} urges more action to protect MEng degrees; Top student engineers earn a grand scholarship
- 83 Worshipful Company of Ironmongers' Jubilee Award 2008; Metal Prices
- 84 Strength in Depth, Grainger & Worrall – 60 years and still going strong, winning awards and challenging the 'norm'
- 86 Quality is a vital key to success
- 88 New rheocasting alloy project; Robot cell adds polish to welds; Temperatures without dip thermocouples
- 89 Taking quality into the information age; Bringing the benefits of wet blasting to your door; Quality and aerospace approvals gained
- 90 Temperature measurement contributes to quality
- 91 Getting back to basics
- 94 Technical Paper - Near net-shaping aerospace alloys by thixoforming
- 97 Technical Paper - Effectiveness of Zn-Ti based refiner of Al and Zn foundry alloys
- 101 UK Regional ICME News - Lancashire Branch technical meetings and social events - The future of ADI; Obituary - A D Lewis
- 102 West Midlands, Birmingham & Coventry Branch technical meeting - Rapid Prototyping and the Minelco Minerals SeqiOlivine project; Scottish Branch technical meeting - Casting the largest steel casting

May

- 106 Global News - Sad day for the UK (Ford); TS Fundiciones invest €6m in new foundry
- 107 UK casters and suppliers celebrate winning Queen's Award for Enterprise; Major investment for Poland for Wheelabrator; Georg Fischer to build iron foundry in China
- 108 Worldwide demand for titanium metal grows; Cast for competitive edge; funding available for UK's SMART ideas; Stop press
- 110 Frech makes 'bigger better' for Fishercast; Czech Foundry Days 2007; Anglo-Indian joint venture proves successful; Asian foundry industry plans for the future; Canadian steel in global hands
- 111 Standards news; New line-scanners for high-temperature metals processes
- 112 Professional - Liberalisation of professional recognition; Survey highlights benefits of employing registered engineers
- 113 Low cost HR facilities; Metal prices
- 114 GIFA 2007 The bright world of metals
- 116 GIFA 2007 Comments from our readers

- 119 NEWCAST 2007 - Customised Solutions from Metal; Thermprocess will be the meeting point of the international industrial furnace industry; Metec 7th International Metallurgical Technology Trade Fair with InSteelCon & EMC 2007
- 120 WFO Technical Forum 2007; Over 250 exhibitors present foundry solutions at MIDEST 2007
- 122 DISA exhibits leading foundry technology at GIFA 2007; Reduce your dip thermocouple use - measure foundry metal temperatures quickly and safely
- 124 Programming times for robot-based grinding & polishing reduced by 80%; Leading the way in large shakeout and sand reclamation systems; The sky's the limit
- 127 Clayton Success in the US; Gibson Centri Tech Limited has been a regular exhibitor at previous GIFA shows; New furnace plant to solve large casting heat treatment challenges
- 128 James Durrans Group; Foseco exhibits total foundry solutions
- 131 So much more than a furnace manufacturer
- 132 Tennant Metallurgical Group Ltd; Monometer Holdings Ltd; Continued Success
- 134 To Russia with Love!
- 135 Solving the skills gap and providing defect free castings
- 136 Soaring scrap prices make chip briquetting even more attractive; Overseas development
- 137 Book Review - The Basic Principles of Fluid Dynamics Applied to Running Systems of Castings by Tom Sutton CEng, Hon, FICME
- 138 Regional Report - UK plc is alive and well
- 140 Encouraging outlook for UK foundry industry
- 142 Technical Paper - The use of tilt filling to improve the quality and reliability of castings
- 147 Technical Paper - Production of ductile iron castings without feeders
- 151 UK Regional ICME News - North East Branch social event - Annual Dinner dance; London Branch works visit - Lost wax process; Scottish Branch technical meeting - High quality bronze sculpturing; Obituary - William (Bill) Johnston Prof MICME (1931-2006)

June

- 154 Global News - Doncasters Scoops GE Award; NovaCast succeeds in South Asian markets; Ford looks for closure; The industry's first SLA resin targeted to high durability applications now available in Europe; Steel industry commits to environment
- 156 Engineering Simulation Conference; U.S. welcomes first new ductile iron pipe plant in 50 years; AluMATTER wins again; Stop Press
- 158 Selecting the best release agent
- 160 Tor Lodge adds real value
- 162 GIFA 2007 The bright world of metals
- 163 GIFA - Visitors Profile GIFA 2003; Recognition for innovative cast parts
- 164 GIFA 2007 - WFO President's address
- 166 New furnace plant to solve large casting heat treatment challenges
- 168 GIFA 2007 - WFO Technical Forum 12-14 June 2007 - Düsseldorf/Germany
- 170 WFO Technical Forum Programme
- 173 Capital offers more options for investment casters; New METEC partner brings fresh impulses
- 174 Search and selection; The smart alternative; PS Autogrounding introduce two new fettling machines
- 176 Over a century of leadership; Professional Development with the industry leader
- 178 At the heart of casting
- 181 Book Review - The Basic Principles of Fluid Dynamics Applied to Running Systems of Castings by Tom Sutton CEng, Hon, FICME
- 182 Corporate manslaughter the thin end of the wedge?
- 184 Technical Paper - The significance of total carbon in greensand systems
- 189 Technical Paper - Innovations in machine learning and defect diagnostics
- 193 WEB Guide Page; Metal Prices
- 196 Institute News and UK Regional ICME News - National Officers 2007-2008, Peter Nix, National President; Willie Howson IEng, FICME, Senior Vice President
- 197 Dr William Griffiths CEng, FICME, Junior Vice President; Workforce training and skills; Lancashire Branch technical meeting and AGM - Oldest branch of the Institute under threat of closure

- 198 West Midlands, Birmingham & Coventry Branch works visit - The oldest foundry in the World; SC#2 The green sand conditioner for today's operation; Derek Lewis a loving friend by Dr N P Sinha

July/August

- 202 Global News - Buhler enters joint venture with Japan Steel Works; GIFA and NEWCAST profit from positive world economy; Capital Refractories join forces with Nickunj of India
- 203 Foundry group announces latest acquisition; European Courts of Justice rule in favour of UK safety law; AB Volvo to invest in casting production; Hydro takes steps to improve US operations; Rolls-Royce and Birmingham University show further commitment to global castings industry
- 204 ICME at Subcon 2007; KUKA launches the world's strongest robot; Russian show grows in strength; Stop Press
- 205 Management buyout at DavyMarkham Ltd heralds new era; Cast cleaning robot promises lower manufacturing costs and higher surface quality; Doncasters to sell its medical technologies division
- 206 Professional - The power of awareness; New 'industry focused' MScs revealed; South West engineering is one in a million
- 207 ICME Technical Board visits Cti; Casting Roadshow
- 208 Working with the environment - Moving towards the 'white foundry'
- 210 Sound-proof dry ice cleaning at DaimlerChrysler
- 211 Toward a green greensand
- 212 Environmental regulations force foundry suppliers to make clean break with the past
- 214 Coatings & Binders - A new technology to prevent veining defects
- 216 Environmentally responsible products that work
- 217 Latest thinking highlighted at Technical Forum
- 218 The key to the clean 'green' foundry; Optimising inorganic core production
- 219 2007 Award Winners Luncheon on Saturday 6 October 2007; Metal Prices
- 220 Technical Paper - Microstructure and mechanical properties of rheo-diecast (RDC) aluminium alloys
- 224 Technical Paper - Advances in thin-wall sand casting
- 227 Obituary - Frank Davis MSc, CEng, FIM, FICME
- 228 UK Regional ICME News - Scottish Branch Weekend Conference
- 229 West Midlands, Birmingham & Coventry Branch annual dinner dance - A glittering climax to a successful season

September

- 234 Global News - Excellence in equipment export; Stable but positive; Joint projects for Hydro; Japanese foundry group buys NovaCast system; Russian moulding line to break records
- 235 Partnership agreement signed; Second in a row for Grainger & Worrall; Stop press; China in the Autumn; New chemicals registration legislation could create difficulties!-The latest in Health & Safety and Environmental news for the foundry industry from David de Courcy of the Cast Metals Federation
- 236 Forging knocked into touch by ADI casting; All change for inspection companies; Obituary - Ian Lennard 1941-2007
- 237 Success 'rains' on Avon Metals
- 238 Bringing worlds together; EC^{uk} calls on engineering academics to seek CEng registration; Engineering Council UK registration fees; ICME National Awards Luncheon 6th October 2007 at the National Motorcycle Museum; Girl test engineering skills
- 240 Here comes the sun - Set amidst kilometres of sunflower fields standing proud and tall, Trakya Dokum stands equally proud-although a little less flamboyant than the bright yellow fields that engulf the site
- 242 GIFA 2007 hailed a success
- 251 GIFA - UK equipment suppliers celebrate
- 252 GIFA - Welcome to the Foundry Family, The Huttenes Albertus stand at GIFA is always busy, with visual presentation being an important part of the concept. This year was no exception with a host of staff from HA's vast global operations on hand to answer specific queries and to give an overview of the products available; Global support, thanking the subscribers and advertisers for visiting the Foundry Trade Journal stands during GIFA
- 254 GIFA 1956 and all that - Arthur Woods Prof MICME
- 255 GIFA - We must advance our techniques
- 256 More frequent, but less effective?
- 257 The best in casting technology

- 258 Maintaining and monitoring metal quality
- 260 Eddy current helps maintain quality standards
- 261 Copper helps enhance quality of life
- 264 Technical Paper - Mould filling in the lost foam casting of Al alloys
- 269 The use of different computer simulation software packages to predict casting filling and solidification
- 271 Metal prices
- 272 SC#2 The green sand conditioner for today's operation

October

- 272 International Industry Events
- 274 Global News - Kaye purchases Pressurecast; Target Russia; Ashland Casting Solutions brings online training to customer
- 275 US foundry saves weeks from model to mould; PCME Ltd received prestigious Queens Award
- 276 Microscopy breakthrough - the smallest details ever seen by electron microscopy; Consarc sets up new headquarters at Eurocentral; The Power of Aluminium has Euro vision; Winning 'the best of British' could be priceless!; The Cast Metals Federation is seeking entries for the 2007 Cast Metals Awards
- 277 Three world leaders combine talents to deliver performance for CGI components; Rencast® system halves costs for wind turbine mould production in China; Stop press
- 278 Air Products to expand liquid oxygen and nitrogen capacity in Poland with new liquefier; Japanese authors triumph in Germany; Put the 'brakes on' for India; Pakistani government plans to develop foundry machinery industry
- 279 Gearing up to meet global challenges, The highly successful Ortrander Eisenhütte foundry in south-east Germany is now adding DISA New Generation vertical moulding technology to its ambitious upgrading strategy to meet the challenges of global markets
- 280 Professional - Catch 'em young, A British undergraduate student working on a 'year in industry' placement at ductile iron pipe manufacturer Saint-Gobain Pipelines has won the top regional prize at the annual Year in Industry Awards event; Update for Professional Reviewers
- 281 Health & Safety Passport; Managing for Success; Best Student Award for 2007; New BEng Course in Metallurgy and Materials (via distance learning); Membership and me - Colin Powell CEng, Prof MICME
- 282 Energy efficiency - Reducing energy use through simulation
- 284 Redirecting waste heat to best advantage
- 285 Best practice for maintaining good power quality
- 286 Software Solutions - Stress simulation offers numerous advantages
- 288 Subcon 2008 NEC Birmingham 22-28 April 2008; Book Review - The Basic Principles of Fluid Dynamics Applied to Running Systems of Castings by Tom Sutton CEng Hon FICME
- 289 E-learning platform launched
- 290 Two for one - a casting for free?
- 292 The last piece of the jigsaw
- 293 Health & Safety/environmental - Keeping accident rates falling; Metal Prices
- 294 Technical Paper - Using stress simulation to tackle distortion and cracking in castings
- 298 Technical Paper -HIPing a potent post casting treatment for high integrity aluminium castings
- 302 UK Regional ICME News - West Midlands, Birmingham and Coventry Branch Technical Meeting, Gormley's iron men; Scottish Branch Annual Dinner Dance Friday 9 November 2007; Scottish Branch meeting - A new year
- 303 Branch and Section Programmes; Obituary - Leonard Clarke; Obituary - Robert (Bob) Cooper IEng, Prof MICME 1944-2007

November

- 306 Global News - US company designs a new, highly automated foundry in Russia; More efficient CNC; Foundries invited to ramp up production
- 307 Royal approval for leading international foundry; Polish fair proves its worth; Dynacast acquires Techmire; Air Products meets Polish demand
- 308 Stop press; Aluminium India 2008 moves into fast track; Small companies to feel the force of Capital gains tax; Expansion for rapid prototyping company

- 309 Ukraine – a key investment location; Guyson blast machine peens turbine blades; On the move
- 310 Professional – It's time to get European credentials; EC^{uk} spells out its role; Professional recognition boost
- 311 DavyMarkham re-establishes Engineering Apprenticeship Scheme
- 312 Mechanical handling and robotics - Salvation by simulation
- 315 Move loads easily on air
- 316 Powering ahead with clean, environmentally friendly fuels
- 317 The advantages of air
- 318 Greensand Moulding - Norwegian stove manufacturer believes in greensand
- 319 Metal Prices
- 320 Flexibility with economy and recyclability
- 323 Getting the best from greensand
- 324 Choosing the best technology for the job
- 328 Technical Paper – Novel approaches in reducing pouring emissions
- 331 Health & Safety/Environmental – Social dialogue agreement on Respirable Crystalline Silica has both 'carrot' and 'stick' elements
- 332 National ICME News – A worthwhile commitment; Oliver Stubbs Medal - Alexander Brown FICME – Scottish Branch; E J Fox Medal - Dr David Rowlands CEng, MIM, FICME – Chesterfield and Sheffield Branch
- 333 Meritorious Services Medals - Peter Wakeman Prof MICME – West Midlands, Birmingham & Coventry Branch; Eric Boulton IEng, Prof MICME – Chesterfield and Sheffield Branch; Best Student Award 2007 - Graeme Brown BEng (Hons), Eng Tech, Prof MICME; British Foundry Medal and Prize - Dr Sam Jones FICME, Dr Chen Yuan FICME and Dr Stuart Blackburn FICME – West Midlands, Birmingham and Coventry Branch; Diplomas - Dr Bill Griffiths FICME - West Midlands, Birmingham and Coventry Branch; Nick Richardson MICME and Malcolm Macnaughtan FICME – London Branch
- 334 UK Regional ICME News - Energy efficient crucible furnaces, ICME London Branch Technical Meeting; More images from the ICME Annual Awards presentation 2007

December

- 336 International Industry Events
- 338 Global News - North American foundry introduces new material; New MD for engineering giant; Frech acquires MW Die Casting Technology
- 340 Romanian facilities herald new era for Scottish foundry; New waste regulations prompt swift action; 2nd Global Foundry Sourcing Conference 2008; New boost for Stanbridge Precision
- 341 Specialist defence foundry launched in UK; Knight Warner becomes new robotics partner to ABB; Thermo expands online; New president for AFS; Aluminium – the environmentally-friendly choice
- 342 Ford recognises large European pressure die-cast company; Employees step up to the plate; Stop press
- 343 The future's bright for one young foundryman
- 344 Professional - Professional status leads the way (ICME).
- 345 ECuk Incorporated Engineer status under the microscope; Tim Greenaway – Membership and me
- 346 Celebrating 60 years and looking to the future
- 348 ICME Awards 2007 – Long and Notable Service Awards; Health & Safety/Environmental, Waste-reduce and re-use from David de Courcy of the Cast Metals Federation
- 349 Metal Prices
- 350 Furnace Technology – Gas purging in the induction furnace from Capital Refractories Ltd, Grant Cullen
- 352 Understanding refractory corrosion
- 355 Furnace feeding using mobile charging devices
- 356 The advantages of oil fired crucibles; Furnace Technology in India
- 362 Technical Paper – New diecasting method is on the runner
- 365 ICME Branch and Section Technical and Social Programmes
- 366 UK Regional ICME News – Scottish Branch works visit, Out and about; West Midlands, Birmingham and Coventry Branch - Advances in grey iron castings for brake discs; North East Branch - A presidential thank-you
- 367 West Midlands, Birmingham and Coventry Branch technical meeting, Repositioning Cti to support the modern foundry industry

EICF News 2007

March

- 70 China takes top place for general casting; EICF Research Group; Management changes
71 Rex Palmer MBE (1936-2007); Six sigma and lean manufacturing workshop; New members; Top honours in American contest

June

- 194 News from the Secretary-General
195 Enhanced water based binder system

September

- 262 Professionals on the market
263 Germany's VDG visits Blayson; Deloro Stellite upgrades casting facility, creating new jobs; European ceramic core workshop; Six sigma and lean manufacturing workshop; Organic fibre enhanced water based binder system; New board of directors

December

- 358 News from the Secretary-General; Machine builder acquisition; Ceramic core workshop
359 A century of success
360 Half century of industry contribution
361 Binder milestone achieved

Patternmaking News 2007

January/February

- 36-37 Location, Location, Location – Midas Pattern Co dominates the street!
37 GTMA and PMMMA Join Forces

November

- 326 Strength in numbers; A total composite solution, New members - The benefits outweigh the costs.
327 Fly me to the moon

Index to papers Vol. 180 2007 Author Index

Index to papers Vol. 181 (180) 2007 Author List

Ainsworth M J, Griffiths W D – The Netherlands & UK Mould filling in the lost foam casting of Al alloys
September No. 3647 Pages 264-268

Blair M, Monroe R W – USA Developments in the design of steel castings
January/February No. 3641 Pages 28-31

Brown A – UK The significance of total carbon in greensand systems
June No. 3645 Pages 184-188

Davis PJ, Griffiths W D – UK Wicking of liquid polystyrene degradation products into the pattern coating in the lost foam casting process
March No. 3642 Pages 62-65

Egner-Walter A, Olive S – Germany & UK Using stress simulation to tackle distortion and cracking in castings
October No. 3648 Pages 294-297

Fang X, Patel J, Fan Z - UK Microstructure and mechanical properties of rheo-diecast (RDC) aluminium alloys
July/August No. 3646 Pages 220-223

Harding R A – UK The use of tilt filling to improve the quality and reliability of castings
May No. 3644 Pages 142-146

Helber J H – Germany Novel approaches in reducing pouring emissions
November No. 3649 Pages 328-331

Holmgren D, Dioszegi A, Svensson I L - Sweden Effects of inoculation and solidification rate on the thermal conductivity of grey cast iron
March No. 3642 Pages 66-69

Horacek M, Cilecek J – Czech Republic Accurate and complex NET-SHAPE castings for challenging markets
January/February No. 3641 Pages 32-35

Kapranos P, Farnsworth M – UK Near net-shaping aerospace alloys by thixoforming
April No. 3643 Pages 94-96

Krajewski W K, Greer A L, Zych J, Buras J – Poland & UK Effectiveness of Zn-Ti based refiner of Al and Zn foundry alloys
April No. 3643 Pages 97-100

Oxley S, Haigh P M - UK The use of different computer simulation software packages to predict casting filling and solidification
September No. 3647 Pages 269-271

Pillai R M – India HIPing – a potent post casting treatment for high integrity aluminium castings
October No.3648 Pages 298-301

Ransing R S, Ransing M R – UK Innovations in machine learning and defect diagnostics
June No. 3645 Pages 189-192

Showman R E, Aufderheide R C, Yeomans N P – USA Advances in thin-wall sand casting
July/August No. 3646 Pages 224-227

Sillen R V – Sweden Production of ductile iron castings without feeders
May No. 3644 Pages 147-150

vom Stein D – Germany Automatic Visual 3-D inspection of castings
January/February No. 3641 Pages 24-27

Gunasegaram D, Givord M, O'Donnell R, Barrie Finin - Australia New diecasting method is on the runner
December No. 3650 Pages 362-365
