

Do you know we offer Bespoke Training?

Are you struggling to fill your skills gaps?
Is there no training available that suits your needs?

ICME can offer any of our training courses delivered directly to you on site.

Everything we deliver is delivered by our team of time served industry experts with a wealth of knowledge and experience.

ICME will discuss your individual training needs and tailor our training specifically to you and your company.

Examples of current courses:

- Design for Casting
- Aluminium Casting Metallurgy
- Introduction to Casting
- Metallurgy for Non-Metallurgists
- Grey and Ductile Iron Metallurgy
- Introduction to Chemically Bonded Sand Systems
- Introduction to Foundry Methods Engineering
- Lean Principles in a Casting Environment
- Introduction to Melting
- Metallurgy Basics
- High Pressure Die Casting Quality & Process
- Introduction to Pressure Die Casting
- Health and Safety Management
- Quality Core making and Core Assembly
- Introduction to Greensand Testing & Process Control
- Furnace Operations
- Sand Controls
- Casting Defects
- Problem Solving Techniques
- Iron Metallurgy
- Coaching for Success
- Aspiring and Developing New Leaders
